RE: Change of PSI-PCI Instructor Status

Dear [REDACTED]

It has come to our attention that you have decided to make the switch from teaching PSI-PCI programs to the ITI "VIP" program. We have attempted to communicate with you regarding this information but to date have not received any communication from you.

We have provided PSI-PCI Instructors ample information so that you would be well aware of the relationship between the company you have chosen to teach for and PSI-PCI. We heard first hand that you have willingly "crossed over to Don's program and found it fun to teach". We were provided confirmation from another instructor that you have indeed "crossed over" to ITI. As a professional PSI-PCI Instructor of many years, it is unconscionable that you would knowingly represent another training company that is hostile toward and in direct aggressive competition to PSI-PCI.

Because of the information we have received, heard first hand and the lack of communication to PSI-PCI when requested, following the Affiliate Instructor Status Policy which you signed 4/12/08; you are formerly notified that you are placed in Suspended Status as a PSI-PCI Instructor.

We never like to place a PSI-PCI Instructor in such status and we hope that you will take the time to communicate with us regarding the situation. We have always appreciated your support for PSI-PCI and cylinder safety. We have professional standards that we work to maintain and the PSI-PCI brand to protect. Contrary to however anyone chooses to spin it, PSI-PCI is still the only training for this purpose that is recognized by USDOT, CGA and cylinder manufacturers.

We would appreciate hearing from you and the opportunity to discuss the situation to help you regain Active Teaching Status. If you prefer not to communicate with PSI-PCI within 30 days, we will have no choice but to move you to Expelled status.

Respectfully,

Mark A. Gresham, CEO & President
