Attn: Brian Carney

Dear Brian,

Blue Steel Scuba is pleased to recognize International Training as a cylinder inspection agency dedicated to the safety and well-being of the dive industry. Understanding and adhering to the current industry regulations as required by the Department of Transportation (DOT), Compressed Gas Association (CGA), Transport Canada (TC) and other regulating bodies, International Training makes safety paramount in its ongoing mission to train and educate instructors as well as the general dive sector on cylinder maintenance.

Every diver or cylinder user is ultimately responsible for his own safety and the understanding of the equipment they are using. International Training and your instructors dedicated efforts in educating them plays an important role becoming an indispensable part of their safety training.

Thank you for your service to the industry!

Sincerely

Bud Allen
Director of Scuba
